Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 is confusing because it contains the wording "or and" in lines 8 and 9.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 52 is rejected under 35 U.S.C. 102(a) as being anticipated by Johnston (2002/0010304).

See Paper No. 112905, paragraph 4.

Applicant's arguments filed 6-14-06 have been fully considered but they are not persuasive. The applicant argues that Johnston doesn't disclose polyurea. Johnston discloses curing prepolymers comprising E-18-2 (paragraph 19) and he shows curing them with moisture (paragraph 7), which would form urea groups in the polymer backbone.

In addition to the above rejection, the examiner has examined the next species, which is rejected below.

Claims 7-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Cummings (3,993,707).

Cummings discloses coatings, which form cast films, made from tridecyl propyl ether propane diamine (Table B) and epoxides.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
